## Seasonal Wasp Control Guarantee

Frame's guarantee is that we will treat any wasp, yellow jacket or hornet nests on the exterior of structures treated at time of service. Our Guarantee lasts through October 1<sup>st</sup>, 2012.

### Exclusions:

- Ground Nests or Nest not on treated structures.
- Honey Bees or Ground bees unless specifically requested when setting appointment.
- Flying Insects from off-site nests. If your neighbors have nests, please recommend our service.

### Reminder:

- Windows may have streaks after treatment so please do not clean before treatment. Clean with water.
- We ask for you to wait at least 21 days before calling on active nests. Our chemical can take time to work completely.
- Please locate nests before calling in as to avoid a service charge if our technician arrives and no nests are found.
- In the fall of the year wasp, yellow jacket and hornet nests do die. The queens produced by these nests leave and search for a place to hibernate. Occasionally, this can be on your home. Unfortunately at that time in the year we are unable to prevent this from happening.
